

U. S. PROGRAM ENFORCE LAW AT BORDER POINTS — ACCORDING TO STATEMENT PLAN IS FAVORABLY REGARDED AT OTTAWA

Washington, Jan. 7.—The United States treasury department has submitted to the Canadian government its detailed program for improving prohibition enforcement along the border and, although official advice are still lacking has been informed that the plan is regarded favorably at Ottawa.

Five hundred new posts of entry would be established under the new system, with the provision that traffic from Canada into the United States must cross the border at these places and the 100 ports of entry already designated. This, with a consolidated and increased border patrol to prevent smuggling between these points, makes up the program.

Before the scheme can be made effective an agreement must be reached with Canada as to the location of the ports of entry, in order that Canadian and United States stations may be located at the same points. Officials here were greatly gratified by indications of Canadian approval.

The plan involves a marked departure from the present system of supervising border traffic. Under existing regulations persons may enter the United States from Canada at any point along the border, with the restriction that officials of the nearest port of entry be advised at once if any merchandise is brought into the country or the crossing is made in a vehicle.

To provide a rigid patrol of the border between ports of entry, existing border agencies—the customs, immigration, narcotic and customs patrols are to be considered under one head, and the number of agents increased. At present there are almost 2,000 agents on the border, representing the five services.

WHEAT POOL NEWS

Steady advancement was made by the Alberta Wheat Pool during the 1929 calendar year. The increase in membership reached a total of 4,363. The pool ending the year with 41,410 members on its lists. In view of the fact that all the first series contracts expired in August, 1929, this membership record is considered very satisfactory by pool officials. It shows a tremendous confidence in the pool on the part of a large proportion of the grain producers of Alberta.

At the end of 1929 the Alberta Wheat Pool was operating 439 elevators. During the year 85 new elevators were built and 36 purchased, which together with one elevator leased, makes an increase in pool elevators of 123 for the year. Additional storage was provided for Vancouver terminal No. 1, bringing the total capacity of the plant up to 5,150,000 bushels. The total Alberta pool country elevator storage is now 16,620,300 bushels and the pool terminal space on the Pacific coast 8,050,000 bushels.

Total Alberta Pool handlings from the 1928 crop amounted to over 67 million bushels, 72 per cent of which was shipped to the Pacific coast. Nearly 47 million bushels were handled through Alberta Pool Elevators, representing 70 per cent of the total.

The outstanding feature of 1929 in so far as the Wheat Pool is concerned was the steady confidence evinced in the organization by the great majority of the members as well as by the greater percentage of the general public. The pool encountered difficulties during the year largely due to unusually heavy production of wheat in practically every country of the world. In spite of this feature the marketing policy of the pool maintained a constant steady effect on the world price of wheat.

Alberta Wheat Pool was involved in a notable legal action during the year and successfully carried its defence to the highest court in Canada. The winning of this lawsuit has resulted in the definite establishment of the legal status of the

FAMOUS NEWSPAPER CARTOONIST, CLARE A. BRIGGS, CALLED BY DEATH

New York, Jan. 4.—(C.P.)—Dust is gathering today on the drawing board of a cartoonist who made the world laugh as he slipped toward death. Unfinished, a drawing of "When a Feller Needs a Friend," is tucked to the ink-stained board.

Cigarette butts lie in their own ashes about an unworked bottle of India ink. Clare Briggs is dead. After a long illness, during which he continued to scratch out the comic series that reflected the kindness of common folk and satirized the weaknesses of the world, Briggs died at the Neurological Institute.

He was 54 years old, but he had cartooned for papers in St. Louis, Chicago and New York before his work was syndicated to hundreds of sheets in America.

Laughter to Millions

Back in 1875, Briggs was born in the little town of Reedsville in Wisconsin. At home he absorbed the rural sentiment he drew into so many of his cartoons. At the University of Nebraska he learned the follies and enthusiasms of youth as further subjects for his many newspaper features. Thirty years ago, he married Miss Ruth Owen of the University town. They had three children.

In his list of comics, Briggs included features that brought laughter to millions of newspaper readers. Every married couple has smiled at his "Mr. and Mrs." and many an old-timer has mullered over memories brought back by the lines of "Ain't it a grand and glorious feeling?" and "When a feller needs a friend." Briggs also originated "How to start the day wrong."

"Somebody's always taking the joy out of life," "And then he took up golf," and several other features. "Tad," cleverest word builder and satirical cartoonist, of the last decade or so, and Harry C. Witwer, who built his cynicism and humor on words and phrases all his own, died last summer. Now Briggs has passed, and "the rest of the boys" mourn.

pooling system of marketing as developed by the Wheat Pool. Another lawsuit in which the Alberta Pool was indirectly involved arose over the fact that all the first series contracts expired in August, 1929, this membership record is considered very satisfactory by pool officials. It shows a tremendous confidence in the pool on the part of a large proportion of the grain producers of Alberta.

HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION THE PROBLEM OF SWEETS FOR CHILDREN

Under the above title has been published a report of the Committee on Nutritional Problems of the American Public Health Association. Judging from the quantity of correspondence we receive, asking for information on this subject, we believe that our readers will be interested in having a summary of this authoritative report.

The report points out our need for several substances in our foods and the danger in allowing a one-sided food, such as pure sugar, to take the place of the many-sided food. It is stated that while bread-stuffs and meats are desirable foods "they can never make a properly-balanced diet, and least of all for a growing child, even though a hardy explorer may be able to live for a long time on such a diet without showing or feeling any noticeable injury." It is emphasized that fruits and vegetables, in providing the necessary minerals and vitamins are "protective foods," as they protect us from all the ill effects resulting from the lack of such substances when we live too largely upon bread-stuffs and meats. The "most important of the protective foods is milk"—a statement which cannot be too often reiterated.

"It is a sobering thought that sugar, as it now comes into commerce, is the most completely devoid of proteins, vitamins, and mineral elements of all the foods which we give our children. From the nutritional standpoint, therefore, it would seem that sugar should be of all foods the most cautiously used in feeding children, lest it displace too much of the food which can do what it cannot in supplying the proteins, vitamin, and mineral elements which children need so urgently and so abundantly for their healthy growth and development."

It is pointed out that in nature sugar is not found in concentrated forms, and that too much sugar may spoil the appetite for valuable foods with less pronounced flavour. "In general, the proper place of sugar is not in such concentrated forms as candy, nor in the indiscriminate and excessive sweetening of all kinds of foods, but rather as a preservative and flavour to facilitate the introduction into the child's dietary of larger amounts of the fruit and milk, the importance of which to child health has been increasingly emphasized with each year's progress in our knowledge of nutrition. Questions concerning Health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered personally by letter.

THE DEFINITION

Sambo: "S'long, Big Boy, I'll meet you at 9 o'clock p. m."
Big Boy: "What d'you mean, p. m.?"
Sambo: "Perhaps maybe."—The Jester.

A Kansas infant was born with seven toes, so it won't look so odd after trying to climb through a wire fence with a shotgun.

MANY STATES FAVOR TARIFF TRUCE MEET—TWENTY-FIVE REPLIES SUPPORT PROPOSAL BY LEAGUE OF NATIONS

Geneva, Jan. 4.—Twenty-five states have replied affirmatively to a proposal by the League of Nations assembly for holding a diplomatic conference to discuss an international tariff truce.

Sir Eric Drummond, secretary-general of the League, announced today that in addition to the 25 states Brazil would send an observer and the Dominican Republic an observer or a delegate.

South Africa, Australia, Egypt, India and New Zealand intimated that they would attend the conference.

PEG PAPER SAYS AIR MAIL SERVICE TO OPEN FEB. 3

Winnipeg, Jan. 7.—The Free Press Evening Bulletin publishes the following special dispatch from Ottawa:

"The date of the opening of the Western Canadian Air Mail service has been fixed for February 3. "It is possible, but not probable, that the date may be changed a day or two either way, but as far as officials of the post office department can now see, the opening mail will leave Winnipeg on February 3."

TOO SMALL

The tram was already well filled when a very stout gentleman pushed in and sat down, part of his ample proportions falling on a very thin gentleman on the right.

The latter glared at him. "They ought to charge by weight in these cars," he said.

"In which case," was the genial response, "it wouldn't be worth while stopping to pick you up."—Pearson's.

Adam Smith thought supply always increased to meet demand. He should see our parking space.

KING SAYS REPORT IS "PURE INVENTION"

Ottawa, Jan. 4.—(Canadian Press.)—"The report is a pure invention," said Prime Minister W. L. Mackenzie King this morning when his attention was drawn to a Montreal despatch quoting the Montreal Gazette as intimating he would be a candidate in the constituency of Chateauguay-Huntingdon.

"It is a method which some journals adopt to increase their circulation," continued Mr. King. "I understood the report appeared in two Conservative papers in Montreal, and I am rather surprised that they would resort to such tactics, because I believe they both have very good circulations. They might have ascertained whether or not it was true by asking me. I have no thought of any constituency other than the one which I have at present the honor to represent and to which I have become more than ever attached."

TALK OF LADY SENATOR SOON

Ottawa, Jan. 6.—"Whether or not a lady senator will be appointed before the opening of parliament is not definitely settled, but it is presumed this will be the case," says the Citizen today. The paper adds: "The list of those already mentioned for the senate are added, in the gossip here, the names of Mrs. Gordon Wright of London, sister of Hon. N. W. Rowell, and Mrs. W. C. Kennedy of Windsor, widow of the late minister of railways."

FOLLOWS SUIT

Friend: "Say, Bill, why do you always slap your horse on one side?"
Teamster: "I figure if I get one side going, the other is pretty sure to follow."—Brooklyn Eagle.

Make the boy bend for spanking. It will teach him to bow from the waist and he will become a movie usher.

The Parade That
Never Ends

DAY after day they pass before you in review—these advertised products which fill the pages of your paper. And, as they pass you, single out one here... compare it with this... mark that one for future reference... here's something you've been waiting for... there's something to try for breakfast tomorrow...

Think of the wealth of information before you every day! What's new in cereals? What's the mode in printed dress goods? What's the latest wrinkle in kitchen appliances? The answers to these and hundreds of other questions are at your fingertips—just for turning the pages.

How much it means to be able to make up your mind before you start out to buy! How many steps and minutes you're saved. How well you're able to budget your expenditures—apportion your money before you begin.

You no longer need to parade from shop to shop—counter to counter—looking... looking... Today you read the advertisements and let the things you want and need march before your eyes for comparison and selection.

Read the advertisements weekly. Keep in step with the progressive parade of merchandise on the printed page. It pays!

NEED FOR NEW TRANSPORTATION IN DEVELOPMENT OF NORTH — RAILWAYS ALONE CANNOT SERVE, DECLARES PROFESSOR WALLACE IN MONTREAL ADDRESS

Montreal, Jan. 7.—Railways alone cannot serve the transportation needs of development in Northern Canada, and new methods must be found, in the opinion of Dr. Robert Charles Wallace, president of the University of Alberta, who addressed members of the Canadian Club here yesterday on "The Pioneering in Canada." This subject, he said, constitutes one of the biggest problems to be faced by constructively-minded men.

"Numerous Odysseys are being written today in the development of the north," said Dr. Wallace. "The country will be known and mapped before we realize it, for exploration by means of the aeroplane is proceeding beyond the imagination of most people, even those who think great advances have been made into the northern territory."

The pioneer of today is a man who makes demands on the country, he said. He demands roads, medical assistance, a telephone, the telegraph and other seeming necessities of life that the pioneer of twenty years ago hardly considered.

"We have got to the stage where there is definite need for men of science, of knowledge, of social science and others who can study costs, the transportation requirement, and the distance from railways in which settlers may be taken," the speaker said. "The whole system has changed, and it is a good thing for more permanent foundations are being formed."

JANUARY ROD AND GUN

Following the recent announcement of the sale of the magazine Rod and Gun and Canadian Silver Fox News, the first issue of this national outdoor publication has appeared from the new office of publication at Gardenvale, P. Q.

This January number is not only up to the high standard of past issues but also indicates promise of rural development to an even higher standard among Canadian publications and greater popularity. The general contents of the magazine are bright, interesting and well illustrated with a wealth of healthy, breezy outdoor articles. The silver fox department is also very good, containing a full report of the show at the Royal Winter Fair.

Rod and Gun and Canadian Silver Fox News is published monthly by Rod and Gun Limited, Gardenvale, P. Q.

NOT HIS LINE

Tenant: "The roof is leaking and it's raining on our heads—how long is this going to last?"
Landlord: "Really, my good man, I'm not a weather prophet."—Brooklyn Eagle.

To get a pineapple in Florida, you say, "A pineapple, please," to a waiter. To get one in Chicago, you just say, "No" to a racketeer.

The old days were much like these except that kind of stories were kept at the lively stable and that kind of books under the mattress.

TOURIST BUREAU TO BOOST CANADA — ORGANIZATION FORMED TO CO-ORDINATE TOURIST AND PUBLICITY BODIES

Montreal, Que., Jan. 3.—(By The Canadian Press)—Co-ordination of all activities of tourist and publicity bodies in Canada from coast to coast is the object of the Canadian Association of Tourist and Publicity Bureaux which was organized here recently under the presidency of Hon. Justice Arsenault, judge of the Supreme Court of Prince Edward Island and former premier of that province. The new organization, which will seek a Dominion charter, was formed during a meeting of the annual convention of tourists, convention and publicity associations of Canada held here. Col. R. H. Webb, newly elected Mayor of Winnipeg was chairman of the organization meeting.

Other officers elected included the following: George McNamee, Montreal, secretary-treasurer; vice-presidents—George I. Warren, Victoria, B. C.; C. C. Hele, Toronto; R. H. Webb, Winnipeg; directors: C. H. Webster, Vancouver; E. R. Powell, Toronto; J. L. Boulanger, Quebec; J. Black, Fredericton, N. B.; E. C. Lynch, Ottawa; C. B. Foster, of the Canadian Pacific Railways; H. H. Melanson of the Canadian National Railways; C. C. Bonter of the Canadian Steamship Lines; A. J. Campbell, Halifax; S. P. Challoner, Sydney, N. S.; C. W. Honey, St. Catharines, Ont.; W. H. Gaudin, Saint John, N. B.; Lt. Col. G. F. C. P. Victoria and H. B. Shaw, Winnipeg; also representatives to be selected in Alberta and Saskatchewan.

It was decided to hold the next annual convention in Winnipeg on the invitation of Mayor Webb, at a date to be selected by the executive. Resolutions were adopted at the session of the convention calling upon the Dominion government to advise Canada more extensively in Europe and the United States, urging the various provincial governments to pass uniform legislation against distribution of unauthorized tourist information, and asking the Dominion government to make it a national policy to complete the highway west from Sault Ste. Marie to Schreiber, Ontario, and the Ontario government in conjunction with the Dominion government to complete the highway from Kenora to Fort William, thus completing the trans-Canada highway to the prairies.

SECTIONAL TALKS ON REPARATIONS

The Hague, Jan. 4.—The principal delegates to the second Hague reparations conference are now holding personal meetings in order to thrash out remaining problems in the Young plan while the experts are struggling with minor but troublesome details. Foreign Minister Curtius of Germany, who had rather a stormy interview with Premier Tardieu of France last evening, today had a talk with M. Briand, the French foreign minister.

Four of the leading German delegates had lunch with the French delegates after which a general conversation ensued on Franco-German relations as affected by the Young plan. The principal subject of these talks was how to replace the sanctions provided for in the treaty of Versailles in the event of a default by the Reich in the payment of reparations.

Berlin, Jan. 4.—It was divulged today that the reparations agreement between Germany and the United States concluded on Dec. 28 contains a clause whereby the United States government declares expressly it regards good will as the sole and sufficient guarantee for fulfillment by Germany of the obligations assumed under the agreement.

CAUSE AND EFFECT

"I'm certain there's something wrong with this loudspeaker. I've had bad reception all the week."
"Have you, dear? That reminds me, I saw baby tottling round full of that trumpet thing with pieces of coal, the darling!" — Passing Show.

Correct this sentence: "When Willie tunes in," said his mother, "the program he selects invariably pleases everybody in the family."

For further particulars apply to H. D. Mann, Solicitor, 612 Grain Exchange Bldg., Calgary.

Dated at Macleod, this 20th day of December, 1929. Approved: A. M. MacDonald, L. J. S. C.

G. R. Davis, Clerk in Chambers

SASK. OFFERED SAME TERMS AS ALBERTA—PREMIER KING ANNOUNCES ATTITUDE IN REGARD TO NATURAL RESOURCES

Ottawa, Jan. 3.—(C.P.)—The premier of Saskatchewan, Hon. J. T. M. Anderson, has been notified by Prime Minister Mackenzie King that the Dominion government is prepared to extend to Saskatchewan similar treatment, in the matter of the return of the natural resources, to that given Alberta.

In a letter written to Premier Anderson, the prime minister offers a continuation of the present annual subsidy and the appointment of a commission to consider what further financial adjustments are necessary. The commission, it is suggested, should consist of Mr. Justice Turgeon, Charles M. Bowman and a third member to be appointed by the premier of Saskatchewan.

With respect to the contention that it has a legal claim dating back to the period before it was organized into a province, the Dominion government is willing to facilitate an appeal to the supreme court to determine this question. From that tribunal there is appeal to the privy council.

OFFICIAL RED TAPE

Oswald Garrison Villard, the famous publicist told this:

"They tell a story about a French functionnaire who was transferred to a provincial town. Well, when the man took over his new quarters he found half a dozen large rooms packed and jammed with thousands of faded, dusty, useless documents, the accumulation of several hundred years. So, needing space, he wrote to Paris for permission to burn the documents."

"He got an answer in due course. 'You may burn the documents,' it said, 'but make copies of them first.'"—Chicago Daily News.

TACTLESS

Customer: "I want to see the cheapest dress you have."
Clerk: "Something a little better than what you're wearing?"—University of Southern California Wampus.

The ideal breakfast is one that tastes as good as yours would look in a three-color magazine ad.

Empress Theater
Current Attractions

PARAMOUNT'S ACTION, SOUND, THRILLER "THE FOUR FEATHERS" WITH WILLIAM POWELL, CLIVE BROOK, RICHARD ARLEN, FAY WRAY AND OTHERS—EMPIRE THEATRE THURS.—FRI.—SAT.—

Two years in the making, with locations extending from Hollywood to the dark jungles and burning deserts of Africa, this spectacle romance was directed by those two great adventurer showmen, Merian Cooper and Ernest Schoedsack. A great emotional story of "Beau Geste" course and gallantry is combined with some of the most excitingly authentic scenes ever put upon the screen. See thousands of madmen hippos mashing through a lake in a wild stampede. See a herd of terrified baboons racing against death in a burning jungle. See thousands of savage Sudanese warriors on their fighting carrels in a death-defying hair-raising charge! See the desperate fight at the desert fort—hundreds against thousands! See this sound-thriller now the POPULAR PRICES for a sensational run in New York at \$2 admission. It's the thrill of a lifetime.

SCREEN FANS CORDIALLY GREET "THE SOPHOMORE," A DIALOGUE COMEDY OF COLLEGE LIFE VIBRANT WITH THRILL AND HUMOR—FINE PATHE TALKIE FEATURING EDDIE QUILLAN, SALLY O'NEIL AND JEANETTE LOFF IN LEADING ROLES ACHIEVE VERITABLE TRIUMPH

Discriminating film fans will find much to quench their thirst for real screen comedy at the Empress Monday and Tuesday where the latest Pathe dialogue picture, "The Sophomore," plays. With Eddie Quillan, Sally O'Neil, Jeanette Loff, Russell Gleason, Stanley Smith and a host of other popular youngsters in the more important parts, this humorous story of modern college life has proved itself one of the most popular talking pictures shown at this theatre this season.

Much credit for the excellence of this fast moving farce of the college youth of today goes to Leo McCarey, the director. Eddie Quillan, that youthful comedian who first got his chance in Mack Sennett's pie throwing institution, but who graduated into feature productions when he appeared in "The Goddess Girl," gives a delightful performance.

He is of the ideal, wise-cracking college boy type—an exaggerated college boy to be sure, but nevertheless the kind we are accustomed to see in real life as well as in the reel. His wit is spontaneous and natural.

Sally O'Neil proves beyond doubt that the talkie is her forte. Her voice is excellent and the speaker her lines convincingly. Her sparkling personality loses none of its pep and charm with the addition of sound.

Jeanette Loff, although she has only a comparatively small role, looks even more beautiful than she did when she first astounded film followers in "Hold 'Em Yale," and "Love Over Night," in which she played opposite Rod La Rocque.

REGULAR MEETING OF MACLEOD TOWN COUNCIL

The Town Council of Macleod met for the first meeting of the year on Monday night. The Councillors present were Mayor J. W. McDonald, K. C. Messrs. W. A. Day, J. Swinerton, Alex. McLeod, C. E. Tweed, W. O. Hoodless, and C. W. Stevens. Mr. Day was appointed deputy mayor for the first three months of the year. Dr. Haig was appointed Medical Health Officer in place of Dr. Brayton, who has left Macleod, Dr. Haig having taken over Dr. Brayton's practice.

Final arrangements were endorsed for the sale of the farm north of the river to Harry H. McLean and J. B. McLean. The farm consists of the N. 1/2 and the S. E. 1/4 of 14-9-26-W. 4th, and the McLeans have had the land rented from the town for a number of years, where they have been operating a large dairy. The council agreed to transfer lot 8 on the north side of 21st to Mrs. Belle Russell, the conditions of transfer having been complied with.

A by-law for the appointment of an assessor was put through the first stages.

OVERLOOK THEM

They were settling a number of preliminary details, as young people will before they take the decisive step.

"Do you believe in allowances for married women?" she asked.

"Sure," he replied. "I think a husband should make allowances for a lot of things."—American Legion Monthly.

Another way to keep from growing old is to believe the man who says he wants an honest criticism.

Mr. Ford is right. If a cow is going dry, you can't mend matters by cutting her rations.

COMING EVENTS
FORESHADOWED

Reich & Co. Ltd. are holding their January Clearance Sale from January 9th to 18th. For 10 days only. All merchandise has been priced exceptionally low for extra quick clearance. Do not fail to attend this annual event.

THURSDAY, JAN. 9th, 1930

THE PROOF IN RESULTS

Newspaper advertising is supreme over all other means for reaching the public, declares Kenneth W. Collins, executive vice president and publicity director of R. H. Macy Company, New York, department store. He told Seattle retailers that the daily press excelled billboard, radio, direct mail and "stunt" advertising.

Competition in advertising and in its means has grown keener every year. That the newspaper has held top place shows there must be reasons. So there are—several. The newspaper first earns the esteem and interest of readers. Half the

Body and Fender Repairing

We wish to announce that we have installed complete equipment for automobile body and fender repairing, and Duo finishing. First class work guaranteed.

THOMAS A. QUICK
Next door East of Crystal Dairy, Macleod.

battle is thus won before the "ad" is even reached.

Newspapers are read for a purpose; billboards, radio and unexpected mail are incidental. The printed page gives an opportunity to discuss the object advertised to an attentive mind.

Newspaper advertising is more than mere publicity. It is actual news, just as much so as the front page. It is not only the message of a business that wishes to sell. It is the message to a person in the mood to buy. The newspaper devoted of its advertising would not be complete. And in a large percentage of cases it would not be bought.

Other advertising means must sell both the idea and the article. The newspaper sells the article, for by its mere entry it has already sold the idea.

You can tell a prosperous country. Nearly all of its unemployed get paid for it.

THE PRICE OF A MINUTE

Almost any day you can read in the newspapers of someone killed by an explosion caused by pouring kerosene on a fire from a can.

It would take ten seconds to pour the kerosene into a small dish from which the few drops could be safely thrown on the fire. It would take barely a minute to rebuild the kindling so that no kerosene is needed.

But a life is the price of the few seconds or the minute that was saved.

Probably 90 per cent of avoidable accidental deaths are the price of a few seconds, or a minute at the most. By extra speed a motorist saves a minute, and dies for it. For the sake of two seconds' precaution, a pedestrian may be killed. A step in the dark, a reckless dive, any one of a score of thoughtless actions may cost life. A moment's judgment or observation would have saved it.

Carefulness becomes as thoroughly a habit as carelessness. It develops the faculty of quick perception, instant observation. It becomes automatic. It is good for the memory, sharpens the entire intellectual process. Best of all, it saves lives.

UNUTTERED PRAYERS

A great many curious things happen in Los Angeles, but not the least of them is Dr. Carl S. Patton's revelation to the ministerial association that God is shocked because the ministers used such casual grammar in their intimate talks with Him. Prayers, says Dr. Patton, should

In the Course of Our Radio Selling

A Brunswick Gramophone in a splendid mahogany case with 23 good records for \$35.00.

A four-tube Westinghouse Radio, complete with tubes, for \$20.00.

We have overhauled these instruments and they are in first class shape.

John T. Doney
Jeweler
Macleod Alberta

be written down, brushed up and gone over by intelligent stenographers before delivery.

The viewpoint, sadly enough, is not so far from a usual one these days. The form of things has come to be more important than the motive.

The good doctor, so worried about offending God, should remember that prayers do not consist of words and that most real prayers live in the hearts of the lowly, unspoken—but, we hope, not unheard.

ALL THAT'S NECESSARY

Charles: "Do you have to have talent to make a living writing jokes for the humorous magazines?"

James: "No; all you need is a steady income from some other source."—Lafayette Lyre.

DISCOURAGING

"Harold is awfully obstinate."
"In what way?"
"It's the hardest thing in the world to make him admit I'm right when he knows I'm wrong."—Tit-Bits.

Correct this sentence: "Now that we are rich," said the woman, "I shall be very nice to those who have snubbed me in the past."

WEDDING BELLS

BEACH—CARMICHAEL

A very charming wedding was solemnized on Saturday, January 4th, at 12:15 a. m., at the home of Dr. and Mrs. A. Carmichael, Bawlf, Alberta, when their daughter Blanche Medora was united in marriage to Evans Eroy Beach, of Regina, son of Mr. and Mrs. J. S. Beach of Edmonton.

The bride, who entered the living room on the arm of her father, to the strains of the Lohengrin Wedding March played by her sister, Miss Dorothy Carmichael, was attired in a dainty gown of brown crepe Romaine with hat to match and carried a shower bouquet of opheelia roses and lily of the valley.

After the ceremony, which was performed by the Rev. Sidney Pike, a delicious lunch was served. The happy couple left on the 2:20 a. m. train for Regina, where they will make their future home at 15 Claire Apartments.

The bride traveled in a rose beige princess dress and wore a handsome Hudson Seal coat, the gift of the groom.

The bride is the younger sister of Mrs. (Inspector) C. C. Bremner, and is well known in Macleod, having spent considerable time visiting with her sister during the past few years. The good wishes of many friends in Macleod go to the young couple in their new life.

FIREMAN'S BALL A BRILLIANT AFFAIR

The Fireman's Ball is now one of the big events of the dancing season in Macleod, and this year New Year's Eve entertainment added another laurel to the efforts of Macleod's fire protectors to give their guests a really enjoyable evening.

Over 300 were present, which taxed almost to the limit the spacious dancing floor, and when nearing midnight the fancy hats and noise makers were handed out, the hilarity and merriment of the huge crowd was unbounded. The music was supplied by Ryan's 5 piece orchestra of melody makers and the number of encores testified the appreciation of the dancers. Refreshments were served after the New Year had been celebrated in a riotous style. Fire Chief Shield and his loyal band certainly excelled themselves in their preparations to give their patrons a good time.

DONATIONS TO MACLEOD LADIES' HOSPITAL AID FOR CHRISTMAS CHEER

The Ladies' Hospital Aid wish to thank their many friends for their generous contributions at their Christmas cheer which helped to make Christmas more cheerful for the Old People at the Hospital.

Donations to Macleod Hospital:
2 boxes Jap oranges, Mr. Jos. Homer. 1 Turkey, Mrs. B. Stevens. Lemons, Mrs. Adams. 1 lb. coffee, Mrs. E. Barker. 1 lb. fruit, Mrs. O'Brien. 2 jars Marmalade, Mrs. Percy McGregor. 2 dozen oranges, Mrs. V. Clarke. 1 goose, Mr. Geo. Pearson. 1 quart pickles, Mrs. J. Ryan. 1 quart pickles and 1 quart fruit, Mrs. J. Swinerton. 1 fruit, 1 goose, Mr. and Mrs. G. Chivelo. 1 quart pickles and 1 quart fruit, Mrs. R. Reid. 2 quart pickles and 1 quart fruit, Mrs. E. Sarge. 1 parcel candy, Mrs. Wm. Walsh. 50c cash, Mr. D. Wilson. 1 tin coconut, Mrs. Greenwood. 1 jar marmalade and 1 lb. tobacco, Mr. Edward McParquhar. 1 quart fruit and 1 quart pickles, Mrs. McMurchie. 1 parcel peanuts, Mrs. Andrews. 1 lb. tea and 1 pk. tobacco, Mrs. Maunsel. 1 jar pickles, Mrs. R. Baker. 1 parcel apples, Mrs. Houtt. 1 dozen oranges, Mrs. Mathinson. 50c cash, C. H. Toombs. 1 box Jap oranges, White Hall. 1 parcel nuts, Miss McLean. 1 jar pickles, Mrs. J. Burke. 2 jars fruit, Mrs. Fasset. 1 jar fruit, Mrs. W. A. Day. 1 box Jap oranges, Mrs. G. H. Pearson, Jr. 1 parcel mixed nuts, Mrs. Cunningham. 1 jar fruit, Mrs. Armstrong. 1 tumbler jelly, Mrs. Crooks. 25c cash, Mr. Grady. 1 lb. coffee, Mr. Jas. Young. \$2.00 cash, Dr. Kennedy. 1 box candy, Mr. Whitworth. 1 box Jap oranges, Mrs. Lantira. 1 box apples, Mrs. Maunsel and Mrs. Buckwell. Reach & Co. \$14.90 Hospital Day. Jap oranges, Mrs. Walker and Mrs. Tripp. Jap oranges, Mr. and Mrs. N. Carrier. Draying, Mr. Hunt. Empress Theatre, advertising.

The President of the Ladies' Hospital Aid would like to thank all the ladies who so kindly assisted with the tea the day of our Christmas Cheer.

Mrs. Adams donation table. Mrs. Percy McGregor in charge of the tea tables assisted by Mrs. Greenwood, Mrs. Swinerton, Mrs. Ryan, Mrs. W. Walsh, Mrs. O'Brien. The tea table was very prettily decorated with a basket of Christmas flowers. Mrs. Reid the president presided.

BEHIND THE SCENES AT RED CROSS

To the man in the street, who still thinks of Red Cross in terms of war and military hospitals, it seems a mystery what is done at Red Cross Headquarters in times of peace. A peep behind the scenes may prove illuminating to the interested visitor.

It is 9 a. m. and half a dozen type-writers begin to click busily. In the Commissioner's Office, the mail is being opened, a stack of a hundred letters when times are busy, as in the December month.

It would be interesting to see the postmarks on the correspondence, for then one would see that Red Cross is not only province-wide, but Dominion-wide, and world-wide. Reading through the heavy mail of Red Cross, is to see life as in a kaleidoscope, with all the varied tints and tones of human experience, ranging from the cradle to the grave. It requires considerable knowledge and discrimination in social welfare and health work to be able to deal intelligently with each and every request that comes to Red Cross.

There are letters from other Societies in other parts of the world, Britain, Russia, France,

Mrs. T. M. Brown as usual gathered in all the bachelors for Christmas dinner.

John Fisher left here Tuesday to sail for the Old Country to visit his home folks.

America, etc., soliciting certain information and asking for specialised assistance from Alberta.

Strange as it may seem, people who have been lost to their friends, through the machinery of Red Cross, have found them again.

Letters from settlers in all parts of Alberta, written with the faith that in Red Cross they have a friend, frequently take some lengthy follow up, if the case is one of sickness or emergency.

Radio letters pour in from the large listening family of the Friendly Hour, and these generally carry an offer of sewing, which means the cutting out table is busy all day.

But it is the Junior Department that carries off the palm for the largest number of incoming letters to Red Cross. Consider, there are in Alberta some 1200 branches with a membership of around 32,000 and you will readily see that the locals keep the Headquarters happily engaged in answering a thousand and one requests.

Sick and crippled children are reported from one far off district that means follow-up of an important nature, for it depends on this whether some little boy or girl is admitted to the Hospital in Calgary or Edmonton. Money comes by mail, the proceeds of a village concert, or the hard earned fees of a handful of Juniors who are proud of being 100 per cent for health and citizenship. Lovely paper blossoms travel by the Red-Cross mail to be used as Tags for dances, etc., their value being, that they are the work of the crippled children in hospital.

The educational end of the Junior work being equally as great as the hospitalization of the sick children, one finds a special Junior department is busy constantly shipping out health rules and charts, skeleton programs, material for debates or plays, and each month the publishing of the popular magazine the Canadian Junior, goes on apace, for Alberta has a large circulation.

Of unusual educational value is the international correspondence by means of school portfolios which travel from this province to all parts of the globe, in answer to fine portfolios received from the distant Juniors of other lands.

Relief work is constantly present in a Red Cross Office, and takes considerable time to ship out, emergency and maternity requirements taking precedence of all others. Health Literature in vast quantities is sent out by mail to the many

Equipped For Service

For twenty-three years this Company has been developing its capacity to give satisfactory service to farmers, both in handling grain and in furnishing farm supplies. United Grain Growers has the experience, the resources, the organization and equipment to serve in the best possible way the farmers who do business with it.

J. Alsagard is holidaying at the coast.

James Blair is suffering from an attack of flu.

C. Anderson has left for Penticton for a holiday.

C. Henker spent a few days in Calgary on business.

Mrs. M. Daley was a Calgary visitor last week-end.

Master David Thomson is severely ill at Claresholm Hospital.

P. Deman is spending a few days in Calgary with his family.

Miss Craft of Lethbridge is the guest of Mr. and Mrs. F. Empey.

Mr. and Mrs. Carl Anderson left Tuesday on a holiday trip to Vancouver.

The W. M. S. held a very interesting meeting in the Church Hall last Thursday.

K. Blair left last Saturday for Vancouver to continue his term in University.

Russell Blair and Leslie Baird have returned to Calgary where they are attending school.

G. Blair left on Thursday for Edmonton, where he will resume his studies at Varsity.

Miss Della Dimm left on Wednesday for Calgary where she is taking up a business course.

G. McDougall has returned to Edmonton where he is attending the University of Alberta.

Mr. and Mrs. Thomas and son were among the out of town guests at the New Year's Eve Ball.

Mrs. C. Anderson left for Vancouver last week where she expects to spend a few weeks' vacation.

Miss M. Clarke, of Lethbridge, spent a few days in Granum visiting at the home of Miss D. Smith.

Don't forget the bridge drive to be given at Reynolds Hall by the Women's Institute on January 15th.

On Friday last Jack McGregor went to Fernie, B. C. enroute to Calgary where he is attending Normal.

Mrs. E. O. McClure left on Thursday for Indiana to visit relatives. She expects to be gone about two months.

Mrs. A. M. Fraser returned on Monday from Spokane where she had spent the holidays visiting her parents.

Mr. W. Sherman, accompanied by his son Wilmer, went to Calgary where Wilmer expects to take up a course in aviation.

The Women's Institute will hold their regular meeting January 15th, at the home of Mrs. Still. Everyone is invited to attend.

Mr. and Mrs. R. F. Smith, accompanied by Mr. and Mrs. G. Fletcher, motored to Calgary to spend the week-end.

The twelve year old son of Mr. and Mrs. Veenkamp had four toes broken on his right foot last week when a horse stepped on him.

The Women's Institute are holding their second of a series of Bridge Drives in Reynolds Hall on January 15th. Everybody welcome.

F. Harman and his sister Miss Edna, accompanied by S. Gosses were Granum visitors Tuesday taking in the New Year's Dance.

Miss Ruth Rogers was so unfortunate as to break her left leg just above the ankle while skating one day last week. The patient is progressing favorably.

Mr. and Mrs. C. Dimm and son Bobbie, Mr. and Mrs. McGregor and family, Mr. and Mrs. R. Smith, A. S. Peebles and H. Larsen were dinner guests at the home of Mr. and Mrs. J. J. Dimm on New Year's Day.

The Old Timers Club held another of their social evenings Monday night when about ninety members enjoyed themselves dancing and playing cards. A lovely supper was served at twelve. Step-dances were given by C. Little, W. Sherman, and W. Howard. Community singing was enjoyed for a few minutes after supper.

The issue of the Granum Times of Thursday, January 2nd, 1930, was duly printed and mailed at Macleod on Thursday, Jan. 2nd, and by some mischance was not delivered at Granum. This is a misadventure which the management of The Times greatly deplores and yet involves circumstances which were beyond the control of the publishers. We regret greatly that this should have happened and assure our Granum subscribers and advertising patrons that The Times has not (as some supposed) suspended publication, but will continue to be printed and published and with the probability that such an untoward event as its non-delivery will not recur.

DEATH OF G. W. RUSSELL

G. W. Russell, of the Daley Creek District, west of Granum, passed away in the Claresholm Hospital on Sunday morning last, January 5th, at 8 a. m. He had suffered for a long while from heart trouble, and death was at last due to hardening of the arteries. Mr. Russell came to this country about twenty-three years ago with his wife, from the United States, having been born in the Eastern part of that country. And for many years he had been a highly respected resident of the district west of Granum. He is survived by a sorrowing wife, three sons, and two daughters, these being, Joseph, Ellsworth, George, Mrs. Radke, and Mary. The eldest son, who is a railroad agent in Montana reached the hospital in time to talk with his father before he passed away. The funeral service was held at the United Church on Tuesday, at 2:30, when a very large number of friends paid tribute to his memory. The service was conducted by his minister, Rev. A. H. Rowe, and funeral arrangements were in the hands of D. M. Leyden. Mr. Russell was a very conscientious and upright man who commanded great respect, and will be missed throughout the entire community, where he had been a trustee for long in the school and a most faithful member of the little Daley Creek congregation of the church. We wish to extend sympathy to the bereaved family.

sire, I would be glad if you would advise this office direct. Or if there is any particular time that you would prefer one of these Supervisors to visit your council, kindly signify to us at your earliest convenience.

Weed Inspector's Diploma Course

I beg also to draw your attention to a Weed Inspector's Diploma Course to be conducted by the Department at the University of Alberta, during the week of February 17th. We trust that you will give this course publicity, and that a number of men from your district will see fit to take this course which is intended to fit them for Weed Inspectors. If they complete the course satisfactorily a diploma will be issued them. There are no fees in connection with this course, and the only expense that candidates will be put to is railroad fare and room and board while in the city. Prospective candidates should advise this Branch as soon as possible.

Yours very truly,

W. J. STEPHEN,

Field Crops Commissioner.

EARL W. BESAW ELECTED

PRESIDENT OF CANADIAN

FIRESTONE TIRE & RUBBER

COMPANY

Nearly 20 years ago a young fellow by the name of Earl W. Besaw walked into the office of Harvey S. Firestone and asked for a job.

"I want a job selling tires with your concern," he told the now famous rubber pioneer.

"Why?" he was asked. "Because I believe in you, Mr. Firestone, and my judgment leads me also to believe that there will be real opportunities for growth and development in the Tire Industry."

Harvey S. Firestone was just really getting his own foothold then—he was making the first steps which would later make him one of the most famous men in commerce and industry.

Besaw got the job. For 20 years he has been an indelible worker.

This week Mr. Besaw attended the annual stockholders' meeting of the Firestone Tire & Rubber Company. At the close of the Directors' Meeting which was held immediately afterwards, Mr. Firestone greeted him with the following words: "Well, Mr. Besaw, you've been made Presi-

DEPARTMENT OF AGRICULTURE MAKES EFFORT TO STIMULATE MORE INTEREST IN WEED CONTROL

To The Municipal Councils of Alberta:

Edmonton, December 30, 1929.

The Provincial Department of Agriculture wishes to draw to your attention that a number of Field Supervisors have been appointed to commence work on January 27th, for a period of one month. These men will endeavor to visit all councils in the province with a view to stimulating more interest in Weed Control. They will also be prepared to hold special meetings from time to time in the different Municipal Districts. You can therefore expect to hear from one of these men within the next few weeks. If there are any special Weed meetings that you de-

ment of the Canadian Company."

The story of Earl W. Besaw is the story of a boy with only a high school education and whose parents were in very modest circumstances and, therefore, not in a position to give him a college education, but Earl studied nights and holidays while selling tires in the great undeveloped Western States, in a way that pleased his superiors and he became branch manager of the Des Moines branch of Firestone.

His rise was rapid, and in 1914 he was promoted to the post of Western District Manager. His appointment as Western Sales Manager and Assistant General Sales Manager followed, and in 1919 Besaw was named General Sales Manager. He next occupied the position of Vice-President of the former Oldfield Company—a subsidiary of Firestone.

In 1920 Harvey Firestone decided to expand in Canada. He foresaw great possibilities in the Canadian territory and made Besaw Vice-President and General Manager of the Canadian Company. Besaw took his new position in December 1922 at Hamilton and supervised the production of approximately 100 tires and 20 tubes a day. Canada grew Besaw grew, and the plant's production was turned into 6000 tires and 6000 tubes a day. Expansion in 1927 doubled the plant and the Firestone Company in Canada is now one of the leading industries in the Dominion.

In expressing his keen appreciation of his appointment as President of the Firestone Tire & Rubber Co. of Canada, Ltd., Mr. Besaw stated "Canada's future is unquestioned. Her national resources are only beginning to be developed and her export trade is expanding rapidly. Our Canadian organization is complete from Coast to Coast and we enter the year of 1930 with a most modern factory, a loyal staff of workers, a sales force, trained in today's merchandising methods, and notwithstanding Firestone's rapid growth in Canada during the past six years, we look for even greater developments in the future."

In a country as large as Canada, one naturally finds considerable variation in flora and climate, two very important factors over which the beekeeper has little or no control, yet which he must consider very carefully when planning his system of management. Beekeeping is now carried on more or less in every province if the Dominion but largely due to the nature of the flora or climatic conditions, there is a wide variation in the degree of success obtained. In the Maritime Provinces, Prince Edward Island, Nova Scotia and New Brunswick, comparatively few bees are kept, but there is no reason why the number should not be increased. The flora is excellent, providing a continuous flow of nectar and pollen from spring to autumn with at least one source, the clovers, from which a good surplus can be expected. Climatic conditions, however, are not quite so favorable as in the more western provinces but in most years a good average crop may be expected. Records from the Experimental Farm at Nappan, show that for a period of ten years an average of well over one hundred pounds per colony was obtained. In the provinces of Quebec and Ontario the flora is much the same as in the Maritimes, but in some localities sweet clover and buckwheat, two very heavy producers of nectar, are more abundant. Weather conditions however, are more favorable and honey crops are more sure. In some seasons and in some localities, crop failures are bound to occur as they do almost anywhere. The past year has been a very successful one for the eastern provinces. The Prairie provinces, are beginners in beekeeping but their growth is rapid. The introduction and spread of sweet clover is turning these provinces into a beekeepers paradise. In the irrigated areas of Southern Alberta alfalfa is of extreme importance. Climatic conditions are also favorable for the secretion and in gathering of nectar and large crops of honey are the results. Because of drouth, the past season was not considered up to the average, yet yields of two hundred pounds and more per colony have been reported. British Columbia also offers good prospects for the beekeeper, her fertile valleys abounding with nectar secreting plants of all kinds are guarantee for good honey crops, especially where sweet clover and alfalfa are grown. Climatic conditions are not always of the best, but the steady growth of the industry is an indication that these are not altogether objectionable. Experimental apiaries are maintained in every province by the Dominion Department of Agriculture and information regarding beekeeping may be obtained, free, from them.

VARIETIES OF WHEAT FOR ALBERTA

The five leading varieties of wheat in Alberta at the present time are Marquis, Reward, Garnet, Red Bobs 222 and Renfrew.

There has always been a tendency to replace an old standard and proven variety such as Marquis with something new. Marquis still continues to be the best variety to grow in districts where it is not subject to injury from early fall frost and rust. Under such conditions farmers should be tardy in replacing it with unproven sorts.

Reward is a new variety of unquestionable merit, and appears to have certain characteristics that make it particularly suitable for central and northern Alberta. It is about one week earlier in maturity than Marquis. It produces a sample of threshed grain which resembles and is equal to Marquis in milling and baking quality. Reward has repeatedly proven its merits as an exhibition wheat. Its straw is strong. Under some conditions, however, Re-

ward will not yield as well as Marquis. This variety will possibly eventually replace other early maturing sorts in Alberta.

Garnet is one or two days earlier in maturity than Reward and under some conditions is a heavier yielder. This variety has not met with favour from the Canadian millers although no complaints have been raised by the overseas trade. It is doubtful if this excellent variety will ever be able to live down the prejudice developed as a result of the discrimination against it by the local milling industry. Where Reward is not available, Garnet is the best variety to replace other early maturing sorts.

Red Bobs 222 is about midway between Garnet and Marquis in maturity. It is a heavy yielder and has strong straw, but when grown under some conditions, lacks quality of threshed grain. This latter factor is the only one that has prevented this sort becoming one of our leading varieties.

Renfrew is a late maturing variety that produces wonderful yields in districts where it will mature. Its late maturity makes it a very risky variety to use in the park belt of Alberta.

One day recently during the few days of below zero weather, a boy of sixteen, a new comer to the West, was brought to a Edmonton hospital with both hands frozen white. He had been two months only in Canada and having come from Scotland did not know the danger of exposing his bare hands when the temperature was twenty-eight below with a chill little wind blowing. However he knows now, and will take care in the future.

For those new-comers to our Canadian West who have not yet weathered a Winter with us, this article is written. If nose, ears, fingers or toes lose feeling and appear a cold white, start friction with snow or a

piece of ice at once, and keep it up until a pink glow appears in the affected part. If possible, put hands or feet in cold water and keep there for an hour or more and then use friction until circulation has been completely established.

Never put in hot water, nor place near a fire.

A person found frozen to unconsciousness should be placed in a cold room and friction with cloth wrung out of ice cold water applied to body with hand friction to extremities. This is to be kept up until circulation is re-established. Then patient is placed between warm blankets and given a hot drink.

Never put in hot water, nor place near a fire.

A person found frozen to unconsciousness should be placed in a cold room and friction with cloth wrung out of ice cold water applied to body with hand friction to extremities. This is to be kept up until circulation is re-established. Then patient is placed between warm blankets and given a hot drink.

Literature on First Aid can be obtained from the Canadian Red Cross Society, 407 Civic Block, Edmonton.

Don't scoff at the "college spirit." Remember your own school days.

McCORMICK-DEERING NEWS

"Good equipment makes a good farmer better"

Published by
C. E. TWEED
The Farm Equipment Man

House Phone 41 Office Phone 157
Vol. 1, No. 38 Macleod Thursday, Jan. 9, 1930

Watch for the "News" each week. Suggestions and news items invited.

Claude Tweed, Editor

Medical science has advanced so far during recent years that the only kind of yellow fever yet uncured is the passion for reading tabloid newspapers.

Now We Can Show You the New McCormick-Deering Cream Separator

Ball Bearings at all High-Speed Points. Capacities: 350 to 1500 lbs. of milk per hour. Hand, belted, or electric drive. You may have seen the Harvester Company's announcement of their new McCormick-Deering Cream Separators. We now have the first of them in our store.

The New McCormick-Deering

has many remarkable improvements. The machine now has high-grade ball-bearing equip-

ment at all high-speed points. Its operation is the last word in light-running ease and durability.

A completely new bowl of skillful design, with a skim-milk-regulating screw controlling the cream density, combines with other features to produce what we believe to be the cleanest-skimming machine on the market. Splash lubrication that "completely lubricates." A supply can with outside faucet. Every provision for sanitation and easy cleaning.

The six sizes of the New McCormick-Deering fit every need—from one cow to a hundred. You are bound to like this new machine. We will demonstrate here or on your farm with no obligation to you.

Zero originally meant nothing. Today it means a whole lot if found on a bank-draft or a note owned by the other fellow. However, it still represents two-thirds of the famous 400.

The longest way "round is the drunkard's way home."

FINISH IT?

Delicia, a very sweet "creature" Told John to be sure to meet 'er But Johnnie was tight And his headlights were bright

An umbrella is just like skating—you never see it when Lent.

Here's a chance for you to assist a sweet young lady. Just fill in the last line:

The New Year

Our Financial Year ends on January 31st. It is most important that we pay what we owe the bank and the wholesalers before that date. We can do this only if you pay us. The accommodation we can extend you during the coming year depends upon your paying us, because we must look to the bank and the wholesalers to finance us if we finance you, and we must clean up with them in order to get the accommodation. So there you are!

THE WHITE HALL

LOCAL AND PERSONAL NEWS

Mr. and Mrs. R. A. Clement were visitors to Calgary last week.

Mrs. J. E. Ramsbottom of Field, B. C., was the guest of Mrs. Lechman for a few days this week.

Mrs. J. Paulsen and children of Okotoks are the guests of Mrs. F. Lane for a few days.

Mrs. E. Greenwood was a visitor in Raymond for a few days last week.

Mr. H. V. Clarke was a Calgary visitor this week, attending the Photographer's Convention.

A number of Soldiers and young people of the Salvation Army paid a visit to the Old Folks at the Hospital on New Year's Day and under the direction of Captain Belovitch, assisted by Lieutenant J. Zutendyk, of Coleman, rendered a programme of music and song. With the co-operation of the staff it was possible to show lantern slides which were much enjoyed by all present.

Miss Gladys Gilroy entertained a number of school friends at her home on Friday evening in honor of Miss Ruth Panter, who is leaving for Medicine Hat. The evening was spent at Court Whist, the prize winners being Irene Young, Miss Ruth Panter and Miss Gwen Hilliard. After cards dainty refreshments were served. The happy evening was brought to a close by singing "For She's a Jolly Good Fellow" and "Auld Lang Syne."

The following from the Lethbridge Herald will be of interest to Macleod people involving as it does a daughter of T. H. Cowdry who was resident at Macleod some twenty years ago: "Mr. and Mrs. J. W. Sprague, Cobourg, Ont., announce the engagement of Elizabeth T. H. Cowdry (daughter of Mrs. Sprague and the late T. H. Cowdry, Esq., of Macleod, Alta., and Simcoe, Ont.), to Mr. S. Owen Greening, son of Mr. and Mrs. H. B. Greening of Hamilton, Ont."

Captain R. Call, who for the past two months has been stationed in Macleod assisting Captain Belovitch, in charge of the local Corps of the Salvation Army, has received farewell orders and during the course of the week has proceeded to Hanna where he will be stationed. During the Captain's short stay in Macleod he has endeavored himself to all who came in touch with him and it is a cause for much regret that he must leave. The local Soldiers said farewell to the Captain at well attended services over the past week-end.

Mr. and Mrs. T. S. McLean, of the Banburne Ranch, Macleod, had a unique gathering at their home last week, when they gave an evening's entertainment in honor of the "McLean Clan" of the Macleod District. There were 35 guests present, all relatives of the Clan, and as the McLean families are now considered Old Time families of the Macleod district, the children and grandchildren of the various branches are now quite numerous. A most delightful evening was enjoyed by all present and the home was beautifully decorated in the season's holiday colors, red and green.

IN ANY CASE UNUSUAL

A fisherman walking across a hayfield in the country met a farmer. "Is it an offense to catch fish here?" he asked. "Offense?" replied the farmer. "No. It's a miracle." — Boston Transcript.

The forward pass is so tricky and uncertain; it would be better to pay stars so much for each touchdown.

MACLEOD TUXIS AND TRAIL RANGERS ENTERTAIN

The closing of 1929 will long be remembered by many who today belong to the C. G. I. T. The Tuxis Boys and the Trail Rangers, in Macleod. These organizations invited their members who were home for the Christmas holidays from Normal School, the University, and Commercial College, to a skate, and at 10:30 p. m. they all met at the United Church Parlors, where the mothers had prepared a luncheon and thirty-six of these hungry boys and girls did justice to the heavily laden tables, which were adorned with all that suited the taste of hungry skaters. Jack Griffin was chosen Trust Master, and called on Harold Knight, who proposed the toast to the King; Our Alma Mater, by Jack Farnet and Karl Tobiasson; "Our Mothers" by Ruth Panter and Jean Day; "The Church" by A. F. Grady and Rev. J. F. Knight; "C. G. I. T." by Gladys Cooney and D. Young; "Tuxis Boys" by Jack Griffin and Gladys Cooney; "The Trail Rangers" by Norval Marks and Dick Wythe. As the midnight hour approached Rev. Knight offered prayer, and the singing of the New Year hymns ushered the New Year in after which community singing and general hand shaking and wishing of a Happy New Year, brought to a happy ending 1929 and a happier beginning for 1930.

MACLEOD HOCKEY TEAM FALL BEFORE NANTON CREW 7-3

Nanton hockey team beat Macleod at Nanton Monday night by a score of 7 to 3 in a fast, clean game. Nanton took the lead when Fisher worked his way through the opposing defense and notched a goal in the first minute of play. Two minutes later Thom secured the rubber and scored on a pass from Little. Shortly after this McKenzie drew Hamilton out of his goal to bulge the twine for the third counter. Nanton team was going great guns and before the period was over the score stood, Nanton 4, Macleod 2. The break occurred one fully in the second period and two in the third, the visitors being held scoreless.

The Macleod goalie gave a splendid display in front of his net and was responsible for holding Nanton's score down, clearing several shots ticked for the weaving. Store gave his usual fine display. The game was refereed by C. Larson of Nanton.

The Lineup

Macleod — Hamilton, goal; W. Hamilton, Dowson, defense; Townsend, Dillingham, Graham, forwards; Miller, Smith, Ringland, subs.

Nanton—Store, goal; Oudekirk, Hallitt, defense; Little, McKenzie, Coutts, forwards; Fisher, Thom, Deacon, subs.

NO WONDER

"This card you have hung in the kitchen, mum," said the suburban cook, "is too much for me. I can't make out what my nights off are."

"And no wonder, Nora. That's a time-table of suburban trains."—Exchange.

SWIMMING POOL MEETING SELECTS OFFICERS TO COMPLETE FURTHER ORGANIZATION

The adjourned meeting for the purpose of considering the advisability of building a swimming pool in Macleod was held on Tuesday night in the Town Hall, there were about 25 present including a number of boys and girls. W. H. Shield, M. L. A. presided and the Rev. J. F. Knight acted as secretary. The movement was set on foot, when the Chautauqua Committee, having a surplus from the Chautauqua, suggested that it might be used to help build a swimming pool. The question was fully discussed at the meeting, and a small committee was appointed to take steps to organize a swimming pool committee, who would make a canvas of the town and district with the object of finding out what financial support could be obtained for a swimming pool. There was considerable opinion expressed at the meeting, that a skating rink combined with a swimming pool would be more popular, than a swimming pool alone, and although the cost would be at least three times more, it would be easier to

collect for the double object than for one alone. The question of getting assistance from the Town Council for the project was mentioned and Mayor McDonald, who came in at the latter part of the meeting, explained the position of the Town in such matters. He said that the Town now had money in the treasury that could be used for such a purpose, but as the Town was still under the control of the Utility Commission, so far as large expenditures were concerned the Commission, the Debenture Holders and the Ratepayers might object to the funds of the Town being used at the present time for such a purpose.

As a start for the selection of officers for a swimming pool organization, Mayor J. W. McDonald, K. C., was appointed as an Honorary President to represent the town, and W. H. Shield, M. L. A., as Hon. President to represent the country districts. The committee appointed was: Messrs. Rev. J. F. Knight, C. G. Bremner, W. J. Knox, F. P. Walshe and Mrs. C. Altham. This committee will meet at once and complete further organization.

DR. M. J. BRAYTON, M.D.C.M., L.M.C.C., LEAVING MACLEOD TO TAKE POSTGRADUATE COURSES IN SURGERY AT JOHN HOPKINS AND VIENNA UNIVERSITIES — DR. W. R. HAIG, M.D.C.M., L.M.C.C., TAKES OVER DR. BRAYTON'S PRACTICE AT MACLEOD

Dr. M. J. Brayton, M.D.C.M., L.M.C.C., has disposed of his medical practice at Macleod to Dr. W. R. Haig, M.D.C.M., L.M.C.C. Dr. Haig comes from Consort, Alberta, where he resigned an extensive and lucrative practice to come to Macleod commencing from January 1st in his medical sphere here.

Dr. Brayton came to Macleod in December, 1927 from Warner, Alberta to assume Dr. Elder's medical practice here and during the past two years has built up a phenomenal clientele in the practice of medicine and especially of surgery, in the latter apparently being gifted with a natural aptitude amounting to genius. Dr. Brayton, in pursuit of his ambition to attain higher altitudes and a wider sphere in the practice of surgery, will go from here to take a three year post-graduate course in Urology at John Hopkins Medical and Surgical University at Baltimore, Maryland—the greatest postgraduate school of its kind in America, and immediately following will spend one year studying the clinics and practical surgery relative to Urology at the University of Vienna, Austria.

Dr. Brayton will be accompanied by Mrs. Brayton and his young son, Darryl. Dr. and Mrs. Brayton have made many warm personal friends during their sojourn at Macleod, and by whom and in social circles their departure (within the next few days) will be keenly regretted.

CARD OF THANKS

Macleod General Hospital
Jan. 7, 1930.
To the Editor, Macleod Times.

I would like, through your paper, to extend my thanks to the Benevolent Order of Elks for their kindness in putting on the Christmas tree at the hospital, and the gifts for the Old People, and to the Ladies Hospital Aid for their Christmas Cheer and to all who donated on that day, which helped so very much to make the Christmas day brighter for the patients at the Hospital. Also thanks to members of the Salvation Army who put on all entertainment on New Year's Day for the Old People, also brought cake and sandwiches.

M. RUNIONS,
Matron.

NEW LOW PRICED COMBINE COVERS 40 ACRES DAILY

Ottawa, Dec. 23 (Special to The Times)—Canadian and Australian interests have combined for the manufacture of a new type compact harvest-thresher machine, which will retail at about \$2,700 in Australia, according to a report from Toronto. The deal will involve the formation of a new \$2,500,000 company and the erection of a plant which will employ 150 hands.

According to reports the "Aussie" combine is small and compact. It cuts a swath ahead of itself on the principle of the push binder but there is no reel. Across the front of the machine is a comb made up of stripper guards about a foot long. Projecting in front of these are detachable lift-up fingers which may be used to straighten grain which is down or bent.

When the machine pushes into the crop it is then adjusted so that the stripper guards push in about two inches below the head, and below these guards is a sickle that nips the heads off. Twin rotating spirals then catch them and feed them to the center of the machine, where they enter the cylinder. Thus the grain enters the cylinder with very little straw.

The cylinder is of the bar type and is so constructed that five adjustments can be made from the driver's seat. The cylinder is also acres.

HELPS THE BAND

"You don't make very good music with that instrument," said the bystander to the man with the bass drum, as the band ceased to play.

"No," admitted the band leader, "But I own a heap of bad music."—Montreal Star.

You may break, you may shatter stock marts if you will, but folks will keep up with the Jones still.

"A white cross means a fatal accident due to somebody's stupidity. And in France they cover many driver's seat. The cylinder is also acres.
